25X1

1. On 2 August 1954, 16 guns of a type not previously observed were unloaded in the Forst Zinna camp at Justerbog. Other artillery pieces, including mortars, were unloaded at the same time. Security measures were remarkably strict; and the new weapons, depicted on the sketch below, could be observed only from a considerable distance.
2. It is not certain whether the new artillery pieces were atomic guns.
